Case Study

MATY

CLIENT Maty is a French jeweler, most popular among 30-50 Y/O females.
CHALLENGE Raise brand consideration among new audiences & the digital natives.

Segmentation

Audience was structured around **3 non-overlapping groups**, based on their relationship with Maty. To target **NEW** audiences (i.e. people who had never interacted with Maty), 4 *Personas* were selected. *Adopt's Personas* represent **Facebook audience segments** that are **homogeneous** in terms of **personality, life values & motivations**.

Targeting & messaging

Personas were split up between the **4 stages of the conversion funnel**, depending on their state of engagement with Maty (awareness, interest, etc.). They were targeted & **retargeted each step of the way down the funnel** with a **message** that was perfectly adapted to their *Persona* & their **placement in the conversion funnel**.

Offer, ad format & message adapted to...

Persona profile

Funnel stage

THE IDEALIST	OBJECTIVE	AD FORMAT	MESSAGE
